

INDUSTRIAL & COMMERCIAL FLOOR CLEANING MACHINES

ASC is Australia's leading industrial and commercial floor cleaning equipment company.

ASC NEW CLEANING CONCEPTS

High Quality, low maintenance machines. Easy to use & service – Globally recognised Brands.

Our extensive range includes large heavy duty industrial sweepers and scrubbers, street sweepers and scrubber driers, floor cleaning machines and a wide range of small push behind manual sweepers, motorised electric sweepers and scrubbers. We also offer alternative fuel choices such as LPG, CNG (compressed natural gas), diesel power as well as traction battery.

ASC not only leads the way in selling new sweepers and scrubbers but provides nationwide 24 hour support, advice and service for your convenience. ASC imports and sells the leading international sweeping and scrubbing equipment, including Dulevo International, Eureka and Mach Line machines. By offering the widest range of quality built leading cleaning brands to suit all industries, we are able to bring to the Australian commercial and industrial markets the world's best sweeper and scrubber machine technologies available on the global market today. We are not restricted to one brand or manufacturer; we sell several of the world's best floor cleaning machines, ensuring we can always offer the right equipment for every situation.

- > Extremely low noise level

ASC SCRUBBER AND SWEEPER RENTAL

TAILORING THE BEST FINANCE LEASING PLAN
OR A FULLY MAINTAINED RENTAL PLAN

ASC STRAIGHT RENTAL

A straight rental or more commonly known as a "Hire" is where you the customer agree to hire a ASC machine for a period of 1 to 5 years on a fully maintained basis*. Once the term expires you may elect to keep renting the machine or exchange it for a brand new one with a new term entered into.

With this type of finance, you hire and use the asset until the last payment. When you make the final instalment, title of the asset transfers to you. You can tailor payment options, including the loan period, a deposit and a larger final balloon payment. To help manage your cash flow, structured payments can be established according to your cash flow.

CHATTEL MORTGAGE

Chattel Mortgages are a popular finance solution where you own the asset from the outset and your loan agreement is secured by the asset. You can tailor your loan payments by choosing the term - typically up to five years. Other payment options can include a deposit and a larger final instalment. You can also structure payments to free up cash flow at the times of year you need it most.

FINANCE LEASE

With a Finance Lease, the financier owns the asset however you bear the risk of disposal (of the asset) at the end of lease. This type of lease can benefit businesses that need the latest vehicles or equipment without tying up a large amount of capital. You can choose lease payments in advance or arrears and terms up to five years. A residual value is required in line with the asset's use and the Australian Taxation Office's guidelines.

OPERATING LEASES

Operating Leases can often be used to fund a number of different assets. Payments towards this type of finance can sometimes be considered operating costs and will not appear as a liability on your balance sheet.

With this type of finance, the financier owns the asset and the client returns it at the end of the term, usually from 12 months to 5 years. When leasing an asset, the fixed monthly payments typically cover, tyres and scheduled servicing and maintenance. For a small business, an Operating Lease can help free up time and resources.

ASC SCRUBBER & SWEEPER REPAIR SERVICE

ASC WARRANTY, FIELD SERVICE & REPAIR

ASC is a leading national supplier of industrial and commercial scrubbers and sweepers in Australia.

ASC is nationally supported for warranty maintenance, repair and service by our service division which has full mobile service and workshop facilities and guarantees all repair work. ASC SCRUBBER AND SWEEPER PARTS

CENTRALISED SWEEPER AND SCRUBBER PARTS WAREHOUSE BASED IN SYDNEY NSW

ASC has a major centralised sweeper and scrubber parts warehouse based in Sydney NSW, as well as a large quantity of quick moving parts in most of our nationwide warehouses which are scattered across Victoria, Queensland and Western Australian states.

Our sweeper and scrubber parts range varies from soft parts (quick moving items like brushes, squeegees, filters, batteries, chargers etc) to hard items like hydraulic motors, actuators, gimbals and the like.

ASC has a huge multimillion dollar parts backup system as well as specialised parts personnel in the company to sort, pack and process parts orders. All our parts personnel have years of experience dealing in sweeper/scrubber parts and are able to provide technical help rarely found in our market sector. In the event that you have major technical issues we can also refer you to our service staff who offer advice on trouble shooting at no charge. We offer spare scrubber parts and sweeper spare parts for all the brands we sell.

All ASC parts are OEM (original equipment manufactured) so you can be assured that ASC parts are well fitting and have great longevity.

ASC is a high integrity company with experienced and qualified staff and today serves nearly 80% of major companies around Australia who seek support, value, reliability and integrity.
